**You can solve
the problem!**

Make Tallies

**You can solve
the problem!**

Add

$$3 + 10 = 45$$

$$7 + 8 = 19$$

**You can solve
the problem!**

Subtract

$9 - 4$

35

$3 - 2 = 17$

**You can solve
the problem!**

Multiply

$$2 \times 4 = 12$$

$$3 \times 3 = 12$$

**You can solve
the problem!**

Divide

$$16 \div 4$$

$$12 \overline{) 144}$$

$$9 \div 3$$

**You can solve
the problem!**

Make a model

**You can solve
the problem!**

Make a table

Number of dogs	Number of legs
1	4
2	8
3	12
4	16

**You can solve
the problem!**

Use a tool

Hundreds Chart

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40
41	42	43	44	45	46	47	48	49	50
