2:00 - 3:15 Session 3

Session 1 w/Dan Meyer: Pre-Registration REQUIRED

Modeling with Digital Media in the Mathematics Classroom

We make enormous promises to our students that mathematics models the world they live in, that math has power in their world. We attempt to make good on that promise with word problems that look nothing like that world and look nothing like modeling as it's practiced by mathematicians. In this session we'll learn how digital photos and videos can help us engage and challenge our students in the modeling practice of the CCSS. Bring your own laptop or tablet.

*Confirmation of registration will be by EMAIL only, please verify email address.
