

7. Look for and Make Use of Structure.

I will...

- find structure and patterns in numbers.
- use patterns to make rules about math.
- use my rules to help solve problems.

$$\begin{aligned} 1 + 3 &= 4 \\ 3 + 1 &= 4 \end{aligned}$$

$$\begin{aligned} 5 + 4 &= 9 \\ 4 + 5 &= 9 \end{aligned}$$

$$\begin{aligned} 21 + 6 &= 27 \\ 6 + 21 &= 27 \end{aligned}$$

$$\begin{aligned} 52 + 8 &= 60 \\ 8 + 52 &= 60 \end{aligned}$$
